# Look Around...The Bystander

## Bystander Quiz Explanatory Statements

Recent research provides evidence for each statement.

- 1 True** Child bystanders were present in 85% or more of the bullying incidents in observation studies of children in playgrounds and classrooms.<sup>9,10,11,12</sup>
- 2 True** Between 80% and 90% of bystanders reported that watching bullying was unpleasant and made them feel uncomfortable. Many children also felt they should step in to help a child who was being bullied.<sup>13,14,15,16</sup>
- 3 True** Bystanders stood up for the victim only 10% to 19% of the time. Instead, bystanders acted as silent witnesses 54% of the time and joined the bullying with words or actions 21% of the time.<sup>17,18,19</sup>
- 4 True** Even when bystanders simply watched bullying without trying to stop it, they made things worse by providing an audience for the bully. Bullying lasted longer when more bystanders were present and when bystanders did nothing to stop it.<sup>20</sup>
- 5 True** When bystanders laughed at or cheered on bullying, they encouraged the bullying to continue.<sup>21</sup>
- 6 True** When bystanders intervened to stand up for the victim, they were successful in stopping the bullying more than 50% of the time—usually within the first 10 seconds.<sup>22</sup>
- 7 True** Adults are often *not* aware of bullying because it usually happens in areas with little or no adult supervision, such as bathrooms, hallways, playgrounds, cafeterias. However, even when adults directly witness bullying, they often overlook or minimize its harmful effects. In playground observations, adults intervened in only 4% of the bullying incidents they witnessed.<sup>23</sup>
- 8 True** When children and adults learn, practice, and use effective ways for bystanders to stop bullying, incidents of bullying can be significantly reduced.<sup>24,25,26</sup>
